Abstract:	The dataset provides conservation areas, within the Melbourne West, Sunbury (Melbourne North-west), Melbourne North and Melbourne South-east growth areas between the 2005 and 2010 Urban Growth Boundary. The dataset is the basis of "biodiversity areas" identified in the Melbourne Growth Corridor Plans (May 2012) and the Biodiversity Conservation Strategy for the Melbourne Growth Corridors to be released in 2013, and prepared as a requirement of the Melbourne Strategic Assessment under the Commonwealth EPBC Act.

Dataset Information:

Dataset Source:

Dataset Source: DSE's Biodiversity and Ecosystem Services staff determined boundaries of sites based on various data sources, including site surveys, the prescriptions for Matters of National Environmental Significance approved by the commonwealth minister for Environment, consultant analysis, and in consultation with DPCD and Growth Areas Authority and the general public. Public consultation and submissions process in Nov-Dec 2011 was an important part of finalising the data.

Dataset Originality: Derived

Collection Method: Derived

Dataset Processing Details:

Positional Accuracy:

Dataset accuracy is dependent on source data accuracy.

Attribute Accuracy:

Attributes are complete and 100% accurate.

Logical Consistency:

Dataset accuracy is dependent on source data accuracy.

Completeness:

VC 68 planning scheme amended growth areas, incomplete Precinct Structure Plan (PSPs) Areas and transport corridors

Access:

Constraints:

None.
